

A Tradition Of Building Value...

Founded in 1989, Inland Homes® has grown into a network of homebuilding companies, each locally managed by individuals who understand their local market. Each company continues the tradition of excellence established by the Suarez family, one of Florida's leading names in home building since 1949.

Today, Inland Homes® is recognized among the top builders in the nation. This success is a reflection of our ability to create custom-quality homes that meet our customer's needs. And, by building our proven designs,

we are able to perfect our craftsmanship to offer exceptional value. Our commitment is to fulfill our customer's expectations by providing a pleasurable home buying, home building and home ownership experience while building them a *Best-in-Class* home for the money. To achieve this, we focus on the details of quality home construction, of impeccable business operations, and of unsurpassed customer service.

At Inland Homes®, we consider it a privilege to be entrusted with building your new home.
